

Detachable Connector Protector

Product number: 990718

Product Overview

The BH03 is an aluminum connector protector to keep your optical fiber, audio&video cables and alloy other cables safe during deployment. The Beetek-patented detachable design allows users to quickly and easily assemble or remove from cables. It can be used with any cables that have an outer diameter up to 35mm and is commonly used with six-core fiber cable, CAT cable, SDI, HDMI, DP and other cables.

Product Features

- Detachable connector protector made of Aluminum alloy material.
- Can be used with 6-core LC/SC/FC/ST fiber connector, RJ45 connector, SD/HDMI/DP connector and various other types of cable connectors.
- Aluminum alloy shell, and the maximum outer diameter is 35mm.
- Detachable design for easy installation.
- Customer Logo can be added.
- Pop-up cap design is easy to open and close.
