

Bite-Lock Cable Straps

Product number: 990725

Product Overview

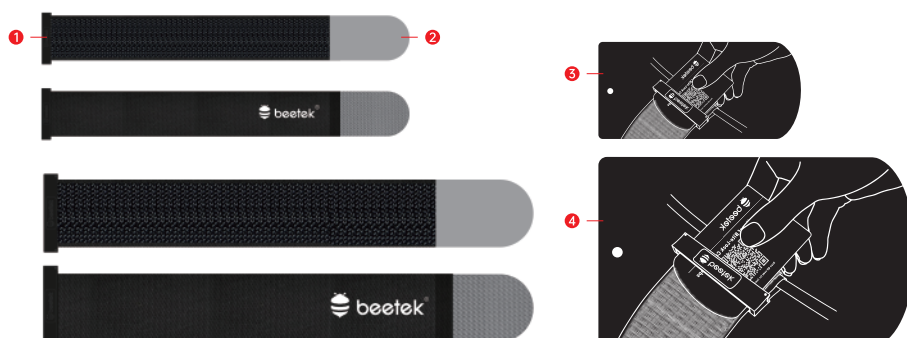

The 'MS' series is an exclusive Bite-Lock cable strap designed for cable storage and organization. The end can be laser-engraved or handwritten with user-defined text and the different product information on the label can be quickly identified to ensure fast and accurate inbound and outbound deliveries. Its unique Bite-Lock design makes it difficult to detach by accident and allows the user to install it themselves.

Product Features

- Wear-resistant and durable: Made of smooth wave-like hook without pricking hands.
- Super adhesion: Integrated hook and loop for strong adhesive force; It separates with just a little tear and will not pill after repeated use.
- Easy storage: With the Bite-Lock structure and serrated design inside, it is not easy to disengage and loose after locking.
- Custom label: The user-defined text can be laser-printed or handwritten such as: company logo, product item, number or length, etc.
- Bite-Lock design: Equipped with a Bite-Lock structure on the head, it is not easy to disengage after locking and requires a special key card to unlock, ensuring that the cable is fixed.
- Available in a variety of sizes: Suitable for kinds of cables and supports sizes customized.
- A wide range of application scenarios: can meet the needs of organization and fixation in professional environments.
